Who are we?

- We help small to medium sized businesses receive between £10,000 to £500,000 in business funding.
- We approve 90% of applications, and funds can be in your account within 48 hours.
- Requesting a tailored quote will not affect your credit score.

What is Revenue-Based Finance?

Revenue-based finance is a simple cash flow-friendly way to borrow funds against a business' future card receivables with a flexible repayment method that allows repayment via the customer's card terminal.

What makes us better than other lenders?

Maximum 15% Split
We won't take more than 15% of your monthly revenue.

Simple Application Process
Simply share your recent credit and debit card statements to raise capital, today.

No Fixed Terms
Repayments are taken as a small percentage of your future credit and debit card sales.

One, All-Inclusive Cost
Agree to one, all-inclusive cost - there's no interest rates or hidden fees.

Funding In Days
Receive the lump sum into your business account within 48 hours.

Partnership Manager
A partnership manager will help guide you throughout the entire funding process.

The Repayment Process

STEP 1
The Agreement
Agree a fixed percentage of your credit and debit card sales to repay the merchant cash advance (between 5% and 15%).

STEP 2
Sell As Usual
Sell to your customers on your credit card and debit card terminals.

STEP 3
Automatic Deduction
The pre-agreed percentage is automatically deducted from your daily transactions at point of sale.

STEP 4
Business As Usual
This is automated so there is no change to the time it takes for you to receive your money.

STEP 5
Balance Reduces Daily
The daily amount deducted then reduces the balance outstanding on the balance cash advance.

STEP 6
Full Repayment
Collections stop automatically once the cash advance has been repaid in full.
